66 RANCH WELCOMES YOU TO OUR 4TH ANNUAL BULL SALE

It is our pleasure to welcome you to our 4th Annual Spring Bull Sale! Once again we are pleased and honoured to have Badlands Angus bring their top end of Red Angus yearling bulls and as well this year a powerful set of 2 year old Red Angus Bulls.

We would like to thank all our past customers for their continued support over the years. We truly appreciate your business! We are very aware that you can purchase bulls from many other sources, however, we feel honoured that you take the time to evaluate our cattle. Thank You! For those of you not as familiar with our program. We are a family run operation, focussing on raising bulls for the commercial cattleman/cattlewomen. Our passion however, is in our cowherd. Like every rancher knows it all starts with the cow. It takes a functional female to raise that top end bull, steer calf or heifer calf. Our purebred cows are run strictly in ranch conditions in the same manner as our commercial cowherd. We are extremely focussed on making very moderate females, and constantly working on adding natural fleshing ability to our cattle. So they can function by themselves in real range conditions.

We calve our purebred cows on pasture starting in early April. We calve for 60+ days which leaves us with a number of calves born in May. Our April calves are destined for our spring sale as yearlings. However, last December we held our first Fall Bull Sale! This comprised of a special selection of some April calves. Retaining a few entire sire groups for our December sale, from our April born calves. We have decided to do the same for this coming December. All calves born from May 1st and on are held over for 2 year olds for our spring sale. We feel this brings a real strong set of 2 year old bulls to town. No calves are pulled out of this group as yearlings!

For any of you who did not already know, we comment on every cow at birth and as well take a photo of her focussing on her udder. While we are tagging and weighing the calf, we take a photo of the cow at the same time. Often a bag can look quite different a day or so after a calf is up and going on a cow. So we want the photo just after the calf is up and had his first taste of milk. We rate the cows udder at that time as well. Those photos are available to anyone who cares to see them. The photos may not be what you would call a "brushed up" typical purebred picture. Often a little "after birth" may be seen in the photo and the cow may not be standing like a traditional purebred photo. But we would be more than excited to show you our cowherd at this time of year.

Our bulls will produce moderately framed cattle with natural fleshing ability that will go out and work for you. We develop our bulls on a feed ration that allows them to grow properly into working ranch bulls conditioned, sound individuals that will give you years of service. However, like we all know sometimes you will endure some bad luck during breeding season. For that reason we carry a deep spare pen of bulls as a service for our much appreciated customers. By all means, if anything goes wrong prior to or during your breeding season and you find yourself short on bull power, please give us a call.

We are thoroughly excited to see you all sale day or possibly prior to the sale at the ranch, where our bulls can be viewed anytime. If you are unable to attend our sale due to time, weather or distance you can follow our sale online at www.cattleinmotion.com or live bidding via the phone by contacting one of us at 66 Ranch or one of the capable S.A.L.E staff on sale day. Remember to check out the videos of all the bulls in the sale at our website www.66ranchltd.com prior to the sale.

Buy with confidence we absolutely stand behind our cattle!

For any of you attending the sale, be sure to join us after the sale for an outstanding angus steak and a little country hospitality!

Thank you,
Chuck, Kelsey, Malissa, Brett and Carter

BADLANDS ANGUS

Badlands Angus is once again excited and honoured to be a guest consigner of the 66 Ranch Bull Sale with our offering of Red Angus bulls. For our valued customers, nothing has changed. We continue to stand behind our bulls 100%. We invite you to join us at the sale, where customers become lifelong friends.

CAN'T MAKE IT ON SALE DAY?

Our sale will be broadcast online @

www.cattleinmotion.com

1-888-554-VIDS (8437)

We are pleased to announce that we will have the services of Cattle In Motion. This will allow you to bid on the bulls on the internet. Of course, we would rather you attend the sale and our hospitality afterwards, but we well know today's world just keeps getting busier and busier! But, if for some reason you cannot attend, this gives you the opportunity to bid on the bulls at the live auction. Please remember to pre-register at www.cattleinmotion.com 24 hrs. prior to the sale.

We also have available with this service a live video of every animal in the sale. To view these videos go to our website www.66ranchltd.com and just click on 'view catalogue'. Videos are also available at www.cattleinmotion.com. We encourage you if possible to view the cattle at the ranch prior to the sale.

Please contact Kelsey @ 403-362-0672 with any questions or issues with registering for the sale.

NEWELL VETERINARY CLINIC

The yearling bulls offered for sale by 66 Ranch have passed a physical exam and have scrotal circumference measurements above the minimum requirement recommended by Society of Theriogenology and the Western Canadian Association of Bovine Practitioners.

I further recommend that all the yearling bulls purchased at this sale be given a Breeding Soundness Evaluation by a licensed veterinarian at a future point in time. It is preferable to conduct this exam no earlier than 13 months of age to avoid immaturity issues that often affect younger bulls.

Sincerely,
Tim J. Keogan DVM

An A.I sire we are still really excited about. We have 1st calf heifers calving this spring off Thunder and are really impressed with the thick, deep females he has sired. Real Angus looking cattle. All reports are the udders are near perfect. The bull calves sired by Thunder definitely have that "extra rib." Super long, deep sided cattle. He sure puts the hip on his calves and yet maintains that calving ease we are all looking for. Appears to be that all around perfect bull!

A "sleep all night" heifer bull. Extreme docility, very easy keeping cattle. Always packing extra flesh. Females are quite moderate, deep and thick with that real "Angus" look to them. Cole Creek cattle are well known for fending for themselves and the way the cattle are performing they are making us believers as well!

What can you say about Final Answer? A proven herd bull! Last summer Final Answer passed 500,000 in semen sales, so obviously somebody else liked him. He sure seems to pass his great look onto his progeny.

What a herd bull 65U has turned out to be for us! Last summer he walked on a set of cows at age 6. Retiring him last fall, still absolutely astonished with the foot under this bull as he was approaching 7 years old. A bull that will definitely add heel to your females. And he has consistently brought a powerful set of sons to town the last couple years.

A proven heifer bull. Very, very consistent birth weight on his progeny. A "sleep all night" heifer bull. Coming from the Fraser program this bull brings the longevity that the Fraser cattle are well known for. And the females sired by 9228W, nearly everyone is perfect.

Super excited to be able to offer our first set of full "flush" brothers by 14W. Deep ribbed and huge capacity with growth and thickness along with incredible docility. Super hair coat. The cow chosen to flush 14W to has been designated Elite since 2007. A proven herd bull maker in the "Sewall" herd. And many of her daughters producing offspring at 66 Ranch.

An A.I sire we used that will give you the performance you want, whether marketing your calves in the fall, feeding them until spring or taking them to the finished product. He sure appears to be a never miss bull. Every one of his calves seem to be at the top end of their pens.

Plain and simple, 17Z has it all. Performance, ease of flesh, leg structure, super foot, free moving, maternal. We feel we have lucked out and finally raised one that can compete with any A.I sire. 17Z's first sire group of calves on offer are absolutely outstanding. Right from the first one to the last one, they are all outstanding. His heifer calves are extremely feminine and by far the top end of the pen. Super performance of 681lbs actual avg. on 22 bull calves and 604 lbs actual avg. on 14 heifer calves weaned off the cow on prairie grass the 1st week of November. Very moderate birth weights of 88lbs avg. on the bull calves and 78lbs avg. on the heifer calves. We find it much easier to have confidence in A.I.ing to a bull that you know exactly what his sire is and as well his dam. Because they both came from your program. Expect to see more 17Z calves in the future!

As proof in the progeny by Bobcat and likewise his E.P.D numbers from a +0.1 B.W to an amazing +106 Y.W. He definitely is a true "Rancher Bull." A calving ease bull that works super on 1st calf heifers and has the performance to use his sons on your cows as well. Last spring calving our first set of heifers off Bobcat WOW! WOW! Every heifer had as close to a perfect udder as you could ask! Expect to see more Bobcat progeny at 66 Ranch.

An A.I. sire we used that sires growth, muscle and outstanding style with extra size and scope. From his first set of calves to town this spring, we can agree he is all that. A real calving ease sire with a B.W E.P.D of +0.9 to an outstanding +106 W.W. We have seen this bull in person in Billings, super feet and leg structure. Very impressive.

An A.I. heifer bull we used from Cole Creek bloodlines. Extreme docility with a very moderate birth weight and has excellent performance. We ourselves are very pleased with the growth of these cattle after they were weaned. Competing very well with all the other performance sires. Once again, going back to Cedar Ridge these cattle are displaying that natural ease of flesh. The real "cow mans" kind of cattle!

An A.I sire we are still really excited about. We have 1st calf heifers calving this spring off Thunder and are really impressed with the thick, deep females he has sired. Real Angus looking cattle. All reports are the udders are near perfect. The bull calves sired by Thunder definitely have that "extra rib." Super long, deep sided cattle. He sure puts the hip on his calves and yet maintains that calving ease we are all looking for. Appears to be that all around perfect bull!

What a herd bull 65U has turned out to be for us! Last summer he walked on a set of cows at age 6. Retiring him last fall, still absolutely astonished with the foot under this bull as he was approaching 7 years old. A bull that will definitely add heel to your females. And he has consistently brought a powerful set of sons to town the last couple years.

An A.I. sire we used which has superior performance and a very respectable birth weight at 71lbs. A very stylish bull and obviously passes it on to his progeny. A very strong sire group on offer, from the first one to the last one. Going back to Alliance 6595 we know you will love the females.

What can you say about Final Answer? A proven herd bull! Last summer Final Answer passed 500,000 in semen sales, so obviously somebody else liked him. He sure seems to pass his great look onto his progeny.

A son of the infamous "26L" raised by the Sewall's. A very well structured bull, with extra flesh all the time. Out of a 4C6 Ambush cow. You know the females will be the ones you want to keep. After seeing what 87Z has grown into we have since flushed his dam back to 26L. Expect some full brothers to 87Z next spring.

An A.I. sire we used. The few calves we have out of him look great. Super calving ease on both sides. As well, Thunder on top of the dam's side sure should make the females the right kind.
