66 RANCH WELCOMES YOU TO OUR 8TH ANNUAL SPRING BULL SALE

It is our pleasure to welcome you to our 8th Annual Spring Bull Sale! We would like to thank our valued customers and friends for your support and trust in our program. And as well, thank you, to any of you new to our program for taking the time to assess our livestock.

The barebones of our program is Maternal! Every sire that we choose to use in our herd must pass a scrutinizing test of what the females will be like before we even start to consider all the other factors on the bull side of things. Like proper foot & leg structure, moderate birth weight and frame size without sacrificing the depth in body factor, easy fleshing, then to performance at weaning and yearling, and then focus on the E.P.D numbers lastly. We strongly believe a very good cow with a great foot and udder with a moderate frame size will last in our climates here in southern Alberta & Saskatchewan or the rough mountainous regions that some of our bulls are asked to perform in. And that a damn good cow will always raise a good calf. Our cows at 66 Ranch are under a microscope from day one. There is no tolerance at our place for bad feet or bad bags. We are constantly watching for flaws in our females, and proud to say we are having to get rather picky to find a reason to cull a cow. Well knowing, we will never be done with that job. I guess we call that progress!

Our bulls at 66 are also under great scrutiny. Right from branding season in the spring up until they become 2 year olds and are offered to you. If their not suppose to be a bull, we correct that. Our 2 year olds offered in our spring sale, are chosen from all the calves born from May 10th and after. When they get sorted in their pen at weaning, that pen is off limits for anything except culling. We believe that is the best way to run a 2 year old bull program and be able to offer you a strong set of 2 year old bulls. Our yearlings offered for our spring sale are born approximately from April 7th to April 30th. We will retain some complete sire groups from that time frame and as well the calves born between May 1st to May 10th to be sorted out and are destined for our fall bull sale.

All our bulls at 66 are grown carefully into working ranch bulls. We do not believe in pushing our bulls. Our yearling calves are fed from weaning until sale time a ration consisting of alfalfa hay, supplement, a few pounds of OATS and our choice of silage for the year. Our 2 year olds are brought in from pasture usually between Dec. 15th and Jan. 15th depending on the winter, and are fed a similar ration as the yearlings.

The two year old bulls are all semen tested and vet inspected and to go after the sale. This year with us moving the sale to a later date. We, along with our veterinarian's advice, believe the yearling bulls will be old enough to semen test prior to the sale. By doing this, hopefully it will make yours and our lives easier by the bulls being able to go to their new homes directly after the sale or shortly thereafter.

Also, any of you coming from the north country please don't drag a trailer down to haul a bull or two back from the Fort. We will get the bulls back to 66 Ranch and you can get them from there or we will get them out to you. All our bulls are sold guaranteed! If you're not happy, we aren't. If something isn't correct please tell us, the service in our business starts after the sale.

We really look forward to seeing all of you at our sale, or possibly before at the ranch where our bulls and cow herd can be viewed anytime.

If you are unable to attend the sale due to time, weather or distance you can follow our sale online at www.dvauction.com or live bidding via the phone by contacting one of us at 66 Ranch or any of the capable S.A.L.E. staff on or before sale day. Remember to check out the videos of all the bulls in the sale on our website www.66ranchltd.com prior to the sale.

We really appreciate all of you who can attend our sale. And like I mentioned in the beginning, we are very proud of the female side of our operation. So just like last year we want to share some of that with you. Every bull's lot number in this year's sale will be thrown into a hat and at the end of the sale a lot number will be pulled from the hat. The purchaser of that bull's lot number will be able to select at our ranch one yearling open heifer from a hand selected pen of 10 heifers to take home to put into your herd. Or if you decide that a 66 Ranch Black Angus heifer does not work for your operation a cheque for \$1000.00 will be made out to you.

Whether you purchase a bull at the sale or come to evaluate our cattle, or just come for the social outing. Please stay after the sale for an Amazing Angus Steak and a little "Country Hospitality."

Thanks

Kelsey, Malissa, Brett and Carter

8th Annual

BULL SALE

THURSDAY, APRIL 25, 2019 at 1 PM

Southern Alberta Livestock Exchange - Fort Macleod, Alberta

Offering • 47 Two Year Old Black Angus Bulls • 97 Yearling Black Angus Bulls

VIEWING: Bulls can be viewed anytime before the sale at the ranch. Bulls will be available for viewing at Southern Alberta Livestock Exchange on Wednesday, April 24.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold. Insurance will be available sale day with Canadian Farm Insurance, Jill Wildman 1-780-305-1146.

BULLS TO GO RIGHT AFTER THE SALE!!!

We ask if any Two Year Old bulls or Yearling bulls that are hitching a ride back to our Ranch on our cattle wagon be picked up within 5 days after the sale PLEASE!! We understand very well how busy everyone can be. But 66 Ranch will not be held responsible for any injuries to the cattle after the said 5 day period. If for some reason these cattle cannot be picked up within 5 days we would much appreciate a call, and plan "B" can be made. Thanks for understanding.

BREEDER'S GUARANTEE: All two year old bulls and yearling bulls will be semen tested and physically examined by our local vet and sold with a breeders guarantee.

EVERY BULL at the sale will be sold with a 100% satisfaction guarantee.

SIGHT UNSEEN: In the event you are unable to attend the sale or use the online option, bids can be given to sale staff or owners with satisfaction guaranteed.

CAN'T MAKE IT ON SALE DAY?

Our sale will be broadcast online @

DVAuction
www.dvauction.com

We are pleased that we will have the services of DV Auction. This will allow you to bid on the bulls via the internet. Of course, we would rather you attend the sale and our hospitality afterwards, but we well know today's world just keeps getting busier and busier! But, if for some reason you cannot attend, this gives you the opportunity to bid on the any animal in the live auction. Please remember to pre-register at www.dvauction.com 24 hours prior to the sale.

We also have available with this service a live video of every animal in the sale. To view these videos just go to our website at 66ranchltd.com and click on 'view video'. Videos are also available at dvauction.com. We encourage you if possible to view the cattle at the ranch prior to the sale.

Please contact Kelsey @ 403-362-0672 or Malissa @ 403-501-9358 with any questions or issues with registering for the sale.

MALISSA'S CELL 403-501-9358

PLEASE NOTE:

- All two year olds and yearlings are semen tested
- No bulls have been sold prior to the sale
- Bulls are sold in catalogue order
- Updated weights & scrotal measurements will be available Sale day
- 66 Ranch reserves the right to draw 250 straws of semen at our expense and at your convenience on any bull selling in the sale. For in-herd use only.

NEWELL VETERINARY CLINIC

The two year old bulls offered for sale by 66 Ranch have all passed a breeding soundness examination and are classified as satisfactory potential breeders.

This year the yearling bulls offered for sale by 66 Ranch have passed a breeding soundness examination and are classified as satisfactory potential breeders. They have scrotal circumference measurements above the minimum requirement recommended by Society of Theriogenology and the Western Canadian Association of Bovine Practitioners.

In my opinion the bulls offered for sale are in excellent health and in ideal body condition.

Sincerely,
Kirby Finkbeiner, DVM

RECOMMENDED HEIFER BULLS

There are probably more than the 27 recommended "Heifer Bulls" at our sale. But we feel confident that the bulls with the **bold print BW** in the catalogue will make for trouble free calving off your 1st calf heifers.

PERFORMANCE DATA

AOD: Age of Dam

BW: Actual Birth Weight

205D: Weaning weight in lbs.
adjusted to 205 days

365D: Yearling weight in lbs.
adjusted to 205 days

EPD EXPLANATION

BW: Birth weight, a prediction of a sire's ability to transmit birth weight to his progeny

WW: Weaning weight, predictor of a sire's ability to transmit weaning growth to his progeny

YW: Yearling weight, predictor of a sire's ability to transmit yearling growth to his progeny

MILK: A predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters

The 2018 Angus Average EPDs are as follows and are the numbers to compare the bulls in the catalog to:

Average Black Angus EPDs for all calves born in 2018

A walking bull raised at 66 Ranch. What a fortunate thing is happening to us with this bull! He checks all the boxes, very moderate birth, great performance, awesome looking female progeny, great scrotal, feet are superb, natural ease of flesh. We are very, very high on these 1D bred progeny. The rancher's kind of cattle out of this bull!

10 sons sell

LOOKING FOR LONGEVITY?

A cow at 66 Ranch is under great scrutiny from her first calf and continuing on her entire life at our place. If they show any imperfections with feet, udder or disposition they are culled right there on the spot. Any cow 4 or 5 or 6 has been scrutinized pretty thoroughly. So with that being said, we are pretty proud to have 48 cows that raised bulls in the sale being 7 years old and older, all the way up to 16 years old.

An A.I. heifer bull we used from Cole Creek bloodlines. Extreme docility with a very moderate birth weight and has excellent performance. We ourselves are very pleased with the growth of these cattle after they were weaned, competing very well with all the other performance sires. Once again, going back to Cedar Ridge these cattle are displaying that natural ease of flesh. The real "cow mans" kind of cattle! Excellent females sired by Cedar Wind with superb udders.

We've seen Resource at Genex Stud in Billings. A very moderate bull, extra rib x2, and super heel under this bull. We saw them collecting "Resource" and the collection team at Genex said you do not have to worry about libido; Resource is very easy to collect. We are really looking forward to more progeny off of Resource at the ranch, females calving last spring were perfect uddered. If there is a flaw in Resource progeny we haven't found it yet.

A walking bull we purchased from Stuart Cattle Station, spring of 2014. 82A is as deep as you will find but yet the calving ease that all ranchers are looking for. 82A may be one of the most docile bulls we have found. The female side of things is even more exciting. We went to Stuart Ranch before purchasing 82A and saw both the dam and grandam. The grandam was 12 at that time and after seeing both of them we were determined to own the bull!

A walking bull we purchased from Cole Creek Angus in 2015. Goes back on the sire side to some older genetics, Juanada 7 of PJM. On our tour of Cole Creek Angus, Malissa and I were absolutely amazed by the quality of females sired by this Juanada bull. Absolutely impeccable udders on those females. Really excited about 1394B because he sure stamped an incredible set of bull calves for this years sale. Very impressive!

	+4.5	+41	+69	+21	+42	-3.0	+8.0

A walking bull we raised going back to Thunder on his sire side. Calving ease with great growth and the female side is very attractive. 296B is an incredibly long bull with great depth.

1 son sells

Lot 45

BULL MANAGEMENT

We do not believe in pushing our 2 year old bulls or yearlings.

They are all carefully grown into herd sires.

A walking bull at the ranch purchased from Cole Creek Angus from Billings, Montana area. We have talked before about the incredible females at Cole Creek, but maybe hadn't mentioned their cows are expected to work for them in very tough semi-mountains/ hard brown grass country. Cole Creek cattle have ease of flesh bred into them and 1144B definitely is easy fleshing. And once again out of a near perfect dam.

Plain and simple, 17Z has it all. Performance, ease of flesh, leg structure, super foot, free moving, maternal. We feel we have lucked out and finally raised one that can compete with any A.I sire. His heifer calves are extremely feminine and by far the top end of the pen. Very moderate birth weights out of 301 calves, 86 lbs. avg. on the bull calves and 77 lbs. avg. on the heifer calves. We find it much easier to have confidence in A.I.'ing to a bull that you know exactly what his sire is and as well his dam. Because they both came from our program.

A walking bull we purchased from Stuart Cattle Station, spring of 2014. 82A is as deep as you will find but yet the calving ease that all ranchers are looking for. 82A may be one of the most docile bulls we have found. The female side of things is even more exciting. We went to Stuart Ranch before purchasing 82A and saw both the dam and grandam. The grandam was 12 at that time and after seeing both of them we were determined to own the bull!

Maternal, Maternal, Maternal! 46P was raised by Cole Creek Angus in Billings Montana. Possibly one of the best herds we have been in. Not a bad foot or udder to be found. We seen a large number of 46P sired cows that were 13 years old at the time, that being the reason we sourced 46P semen to use in our herd. Along with the super strong maternal side, 46P has sired some dandy bull calves. Real easy fleshing, deep sided cattle.

A walking bull we purchased from Cole Creek Angus in 2015. Goes back on the sire side to some older genetics, Juanada 7 of PJM. On our tour of Cole Creek Angus, Malissa and I were absolutely amazed by the quality of females sired by this Juanada bull. Absolutely impeccable udders on those females. Really excited about 1394B because he sure stamped an incredible set of bull calves for this years sale. Very impressive!

An A.I. sire we chose to use on our first calf heifers. Easy calving with some super growth. The Effective bred cattle that are at the ranch are definitely the ones that catch your eye. Very stylish cattle, moderate, deep and real black!

An A.I. sire we chose to use for moderate birth weight and the added performance once the calves are on the ground. First set of sons to town and we must say a excellent sire group of bulls. A pedigree stacked with excellent females, should give you the females that we are all striving to produce.

Plain and simple, 17Z has it all. Performance, ease of flesh, leg structure, super foot, free moving, maternal. We feel we have lucked out and finally raised one that can compete with any A.I sire. His heifer calves are extremely feminine and by far the top end of the pen. Very moderate birth weights out of 301 calves, 86 lbs. avg. on the bull calves and 77 lbs. avg. on the heifer calves. We find it much easier to have confidence in A.I.'ing to a bull that you know exactly what his sire is and as well his dam. Because they both came from our program.

An A.I. sire we found that we are really impressed with. Excellent set of calves, long bodied, great top and really good hind quarters and light birth weights. The heifer calves are really what we are looking for, easy keeping, and moderate frame, with extra volume. Super looking dam that produced Courage 25L.

A new A.I. sire we are really excited about. The bull was recommended to us from our good friends at Universal Semen Sales in Great Falls. From a couple past references they gave us on bulls, explaining how we would absolutely love the females, we sure have! They had told us that the True Grit female side is absolutely outstanding, so we were sold quickly on giving him a try. A low birth weight sire with tremendous growth. After A.I.ing 30+ heifers to True Grit we have confidence he can be used safely on heifers. Looking like another all around kind of bull.

A walking bull we acquired originating from Cole Creek Angus near Billings Montana. Once again the female side of 181Y is extremely exciting. Could not find a bad foot or udder in their cow herd. Cole Creek Angus bloodlines are extremely attractive if you want your cows to be in your herd for a long time. 181Y calves all demonstrate the extreme ease of flesh their father had. The 181Y daughters in our herd all have excellent udders, deep, easy keepers. A favorite at the Ranch.

An A.I. sire we used exclusively on heifers. A real calving ease sire, that produces thick attractive progeny. The females are quite attractive with excellent udders.

Deep, thick, wide, square. As some locals would say a real "meat wagon." Going back on 217Y's sire side, is a proven herd sire of ours that produces excellent females.
